⑤ Faults & The solutions

Q: Start up Fail?

A: Check the cable connect right or not.

Q: The device can not obtain location information?

A: Place the unit at the open area to test.

Q: How to choose SIM card?

A: the SIM card must support GSM&GPRS, and ensure that the card has enough currency and credit.

Q:How to use in the foreign countries?

A: please set the APN before use, please edit the text “#88888#STAP:cmnet ” and send it to the SIM card of the device, CMNET is Chinese operator’ s APN, Replace the corresponding APN when use in other countries, APN details, please consult your local SIM card carrier.

⑥ Cautions:

Please comply with the instructions to extend the unit life:

1. Keep the unit dry. Any liquid, i.e. rain, moisture, may destroy or damage the inside circuitry.
2. Don't put the unit in overheated or over cooled places.
3. Handle carefully. Don't vibrate or shake it violently.
4. Clear the unit with a piece of dry cloth. Don't clean in chemicals,

detergent.

5. Don't paint the unit, this may cause some foreign materials left in between the parts.

6. Don't disassemble or refit the unit.
